Raffi Gevorgyan

1) Terms Page
   a) Removed the unnecessary back arrow.
   b) Entries' design was changed for a cleaner look.
   c) The initial seed data set will only have 1 term as per C6 instructions.
2) Term Overview
   a) Changed plus icon in corner to an edit button because it seemed more logical.
   b) Made the add and delete buttons more explicit in what they did to reduce confusion, and put delete button at bottom of screen.
   c) The initial seed data set will only have 1 course as per C6 instructions.
   d) Entries' design was changed for a cleaner look.
3) Course Overview
   a) Changed the bell icon into an edit icon for consistency with the course overview page.
   b) Moved the notification icon next to course title to make it clearer the class has the notification, and made it white to be easier to see.
   c) Added call and email button for added ease of use.
   d) The course detail fields are more aligned now for a neater design.
   e) Course instructor fields are part of the rest for simplicity and made more explicit that the phone and email belong to the instructor.
   f) Assessments and notes box text are left aligned for a neater design, were made simpler for cleaner design.
   g) The assessment box includes assessment type to be more explicit and dates are vertically displayed for a cleaner look. The assessment title can be custom.
   h) Notification bell was moved to the right of title for consistent design.
   i) The share icon for the notes box was changed to be a more widely recognized icon.
   j) The delete button was made wider to be easier to press when needed.
4) Add/Edit Term Page
   a) Banner title reflects whether the user is editing or adding a Term for clarity.
   b) The Delete button was removed from the Add version because it is unnecessary.
   c) StartDate and EndDate each have a space in them now for overall consistency.
5) Add/Edit Course
   a) Banner title reflects whether the user is editing or adding a course for clarity.
   b) The delete button was removed from the Add version because it is unnecessary.
6) Add/Edit Assessment
   a) Banner title reflects whether the user is editing or adding an assessment for clarity.
   b) The "assessment" in the save button was removed to work better in the confined space.

The wireframe should not reflect any changes with the application in its current state.
